

A letter to our exhibitors and families

Recently, the Florida Junior Swine Circuit board of directors sent out a questionnaire to the members which is being used for planning of the 2025 FJSC Summer Series. Your voice has been heard and we intend on using the feedback from our most recent survey to make decisions for the following season.

We have attached the summaries for each question showing the percentages based on the answers received. That being said we offer the following.

Question #3 amount of FJSC points series shows.

Based on the equal split between the current format and answers indicating less shows equal to 52.4% with the request for more shows being at 47.6% the series is at a point where as we have the option to keep the same number of shows or increase the number of shows. That being said if a member is interested in hosting a summer series show please feel free to reach out to a senior board member and we can assist you with getting setup.

Question #4 Saturday shows or Saturday/Sunday two day weekends.

Based on the equal split between Saturday only shows at 47.6% and Saturday/Sunday shows at 52.4% the senior board has determined the membership is equally split between both options. As such the senior board intends to provide Saturday only shows and some Saturday/Sunday shows for the 2025 Summer Series.

Question #5 End of season awards

Based on the responses from the membership with 60% response requesting alternative prizes or a combination of prizes for the summer series awards banquets the senior board will take this information under advisement in making decisions for the 2025 summer series awards.

We thank you for your time and consideration
